Subject: 4sale Cheap Dummy loads...

The consensus seems to be in favor of buying and selling here as long as it's related to qrp.

Last week we were talking about cheap dummy loads. The ceramic resistor I was using is definitely wire wound. I confirmed this by performing delicate surgery on it. I smashed it with a hammer, "Yup, wire wound."

So I've come into possession of a large package of 100ohm 2 watt carbon resistors. I confirmed they are solid carbon with said surgery.

I will ship a pair of these for \$5 (USA please) to any interested qrpers. Please e-mail off line of this list.

OK folks, looks like the YES votes have it -- so how about getting back to QRP subjects and quit cluttering up the info highway with comments on whether or not for sale items should be posted...(?!?)

Subject: stuff for sale

OK I give up... we should be able to post stuff for sale here...
I'm just concerned about the list getting overrun... I keep forgetting
we have an above average crowd here [sheepish grin]...

Not only post QRP sales here but also cross-post to rec.radio.swap and
possibly save a QRO soul? Not a bad idea at all! Not sure what the
acceptable practices are for cross-posting, but not a bad way to keep
QRP in the publics eye every now and then. 73 and Queue Our Pea DE
